the smooth functioning of an ordered society depends on the possession of a means of regularising its activities over time that means is a calendar and its regularity is a function of how well it models the more or less regular movements of the celestial bodies of the moon the sun or the stars
greek and roman calendars examines the ancient calendar as just such a time piece whose elements are readily described in astronomical and mathematical terms the story of these calendars is one of a continuous struggle to maintain a correspondence with the regularity of the seasons and the sun despite the fact that the calendars were usually based on the irregular moon but on another more human level greek and roman calendars steps beyond the merely mathematical and studies the calendar as a social instrument which people used to organise their activities it sets the calendars of the greeks and romans on a stage occupied by real people who developed and lived with these time pieces for a variety of purposes agricultural religious political and economic this is also a story of

intersecting cultures of greeks with greeks of greeks with persians and egyptians and of greeks with romans in which various calendaric traditions clashed or compromised

important study of the economic and social history of ptolemaic egypt based on the salt tax registers of p count
